

# ARCHITECTURE TECHNIQUE - DECEPTR v1 MVP

Services Docker, stockage, API et validation technique

## Validation technique

|                   |                                  |
|-------------------|----------------------------------|
| <b>GeoLite2</b>   | pipeline/data/GeoLite2-City.mmdb |
| <b>Canary</b>     | API -> Redis -> CRITICAL T1039   |
| <b>Smoke test</b> | status OK, MITRE T1110           |
| <b>Docs</b>       | PDF + Markdown mis a jour        |

## Acces

|                  |                                      |
|------------------|--------------------------------------|
| <b>Dashboard</b> | http://127.0.0.1:8088/index.html?v=3 |
| <b>Kibana</b>    | http://127.0.0.1:5601                |
| <b>API</b>       | http://127.0.0.1:8000/docs           |
| <b>MinIO</b>     | http://127.0.0.1:9001                |
